In almost every large city, notably in New York, thousands of persons are huddled together in filthy and unhealthy tenement houses, and the result is a marked increase in the death rate as compared with that of cities like Philadelphia, where healthful and convenient dwellings are provided for the poor. When Representative Piper in an unguarded moment the other day sligmatized the Centennial city as "an over populated manufacturing country village on a mud creek," he was at once set right by Mr. O'Nelll, who made the statement, which may be slightly exaggerated, that Philadelphia contains more dwelling houses than the cities of New York, Brooklyn and San Francisco combined.

Reduction of The Public Debt.—The official statement of the public debt of the United States shows that during the month of April a reduction of \$2,781,181-49 was effected. In the present industrial and financial condition of the country a larger monthly excess of revenue over expenditures is scarcely desirable, but it is satisfactory to know that the government is, for the time being at least, able to announce that the gross amount of her obligations is steadily diminishing. Aside from the direct payments there seems to be a widefield for reduction of the burden of the debt in the substitution, at a comparatively early period, of bonds bearing only four percent for bonds amounting to nearly one thousand millions of dollars which bear interest at aix per cent in gold. The creatil of the nution is now sufficiently thousand millions of dollars which bear interest at six per cent in gold. The credit of the nation is now sufficiently canadian varieties of oatmeal are yet well established to command all the preferred by some people. money she needs at rates far below six

LAWLESSNESS OUT IN WETZEL.—We are informed of an occurrence that took place two or three nights ago four miles from Littleton, in Wetzel county, which is addigned by Secretary Northrop, of the State Board of Education, for the Centennial Exhibition, and executed by Professor F. R. Honey of the Nels Charles from Littleton, in Wetzel county, which is a disgrace to all connected with it, and Scientific School, of New Haven, is an well calculated to keep alive the unfor-tunate reputation that Wetzel county has self calculated to keep alive the unfortunate reputation that Wetzel county has had for a long time as a theatre of law-lessness and violence. It seems that a man named Levi Long, who left his wife some years ago and took up with a woman named "Pop Wade," was visited by a masked party of Wetzel regulators and very roughly dealt with, both himself and the woman referred to. They were both stripped of all their clothing and tarred and feathered, and, in addition, the woman was tied up by her hands, two or three times, the extort from her a complex of the truth of the truth of the truth as a stissed that the woman really knew nothing about any arms being secreted on the premises, that they desisted from their brutallities and let her alone. Of course she was not only greatly terrified but no doubt considerably injured by the treatment to which she had been subjected. Before leaving the premises the regulators made Long promise to go back and live with his lawful wife. He agreed to this on condition she would permit him to do so. After the departure of these masked, visitors, Long went to work to cleanse himself, Long went to work to cleanse himself and by a vigorous application of coal oil [Gazette of yesterlay.]

The most encouraging feature we have to report is, that nearly all our leading manufacturing interests are getting into better shape. Associations composed of nearly all the principal firms, not only succeeded in removing all the feathers and most of the tar from his well plastered person. The woman, we presume, relieved herself in a similar manner, after which it is supposed that they held a semi-conjugal conference and agreed that although it was hard for two such loving hearts to be separated, yet, under all the circumstances, it was better and healthier that they should part.

The years ago Messes, Geo. P. Bowell A Co., established their advertising accord in New York City. Five years ago they absorbed the business conducted by Mr. John Hooper, who was the first to go into this kind of enterprise. Now they have the satisfaction of controlling the most extensive and complete advertising connection which has ever been secured, and one which would be hardly possible in any other country but this. They have succeeded in working down a complex business into to thoroughly a systematic method that no change in the newspaper system of America can except notice, while the widest information upon all topics incle, while the widest information upon all topics incle, while the widest information upon all topics incle, while the widest information upon all topics in the public.
